Dear Colleague

British Menopause Society 29th Annual Scientific Conference
An integrated approach to menopausal care

I am writing to invite you to join us at the British Menopause Society 29th Annual Scientific Conference, which takes place on Thursday 4 and Friday 5 July 2019 in Kenilworth.

This year’s Conference Programme has been designed to provide a comprehensive range of lectures and workshops to refresh and broaden your knowledge of post reproductive health and to give you the confidence to manage the menopause in the way you feel is best.

The Programme Planning Group, jointly chaired by Dr Pratima Gupta and Miss Lynne Robinson, has produced an excellent line up including Managing menopausal symptoms: a cognitive behavioural approach; Obesity, menopause and hormones; the debate, which this year is This house believes complementary and alternative medicine does more harm than good and the ever popular Menopause Café.

We are delighted to welcome Professor Walter Rocca from the Mayo Clinic, Rochester in the US who is delivering the BMS Annual Lecture: Bilateral oophorectomy, estrogen deprivation and accelerated ageing and Dr Rossella Nappi from the University of Pavia in Italy who will give the Pat Patterson Memorial Lecture: Sexuality in Premature Ovarian Insufficiency.

The full Conference Programme is shown on pages 4-7.

It is good to be back in Kenilworth, hosting our Conference at Chesford Grange.

I do hope you can join us. I look forward to meeting you and to a productive and enjoyable Conference.

With best wishes

Kathy Abernethy
Chairman

The British Menopause Society (BMS) established in 1989 educates, informs and guides healthcare professionals in all aspects of post reproductive health.

This is achieved through an annual programme of lectures, conferences, meetings, exhibitions and our interactive website. We offer a range of publications including our quarterly journal *Post Reproductive Health* and the definitive handbook *Management of the Menopause*.

Women’s Health Concern (WHC), the patient arm of the BMS, provides an independent service to advise, reassure and educate women of all ages about their health, wellbeing and lifestyle concerns.

WHC offers unbiased information – by telephone, email, printed fact sheets, online and through symposia, seminars, meetings and workshops, including Living and loving well beyond 40…!

**Our Mission**

– To increase awareness of post reproductive healthcare issues
– To promote optimal management through our educational programme, publications and information dissemination

The challenge of post reproductive health management is increasing. As most British women can expect to live for 30 years or more beyond menopause, the consequences for immediate and longer term healthcare and lifestyle are significant.

British Menopause Society membership is open to healthcare professionals and others specialising in post reproductive health.

**Affiliations**

The British Menopause Society is a specialist society affiliated to the Royal College of Obstetricians and Gynaecologists and the Faculty of Sexual and Reproductive Healthcare. Working together we have developed theoretical and practical training modules aimed at those healthcare professionals who regularly work in the field of women’s health.
